11 **Task Code 3: Financing Matters (DIP, Exit, Other)**

12 **Fees: \$101,952.00**

13 **Total Hours: 117.4**
14

15 20. Time in this task code relates to matters involving the Debtors-in-Possession
16 financing (the "**DIP**"). FTI coordinated with the other Committee advisors in the review of the
17 proposed DIP financing terms and conditions, fees, and credit agreements. FTI focused primarily
18 on the evaluation of the sizing of the DIP facility by performing a detailed assessment of the
19 Debtors' extended cash flow forecast by month through December 2020 (the "**DIP Budget**").
20 FTI reviewed supporting schedules and assumptions underlying the DIP Budget, including
21 comparing against the Debtors' rate case filings, assessing costs categories, and identifying
22 potential risks and opportunities to determine the reasonableness of the Debtors' projected
23 liquidity need and size of the DIP facility. FTI also reviewed objections to the DIP motion filed
24 by other parties-of-interest to understand the potential impact on the Debtors.
25

26 21. Additional time was spent on meetings among FTI, the other Committee advisors,
27 and the Committee to discuss strategy and approach with respect to the DIP financing, and to
28 identify any potential modifications. FTI also participated in diligence calls with the Debtors and

1 their advisors to understand the assumptions used to prepare the DIP Budget and discuss
2 potential changes. FTI prepared reports for the Committee analyzing the DIP terms and
3 conditions and DIP Budget.

4
5 **Task Code 4: Trade Vendor Issues**

6 **Fees: \$230,130.00**

7 **Total Hours: 290.3**

8
9 22. During the Application Period, FTI reviewed and assessed the Debtors' motions
10 relating to trade vendors, including motions to make payments to "**Operational Integrity**
11 **Suppliers**" (as defined in *Final Order Pursuant to 11. U.S.C. §§ 105(a), 363(b), and 503(b)(9)*
12 *and Fed. R. Bankr. P.6003 and 6004 Authorizing Debtors to Pay Prepetition Obligations owed*
13 *to Certain Safety and Reliability, Outage, and Nuclear Facility Suppliers* [ECF No. 883]) and
14 "**Lien Claimants**" (as defined in *Final Order Pursuant to 11. U.S.C. §§ 105(a), 363(b), and*
15 *503(b) and Fed. R. Bankr. P.6003 and 6004 (I) Authorizing the Debtors to Pay Prepetition*
16 *Obligations owed to Shippers, Warehousemen, and other Lien Claimants and (II) Granting*
17 *Administrative Expense Priority Status for Claims Arising from Goods Delivered to the Debtors*
18 *Postpetition* [ECF No. 697]). FTI had calls with the Debtors and their advisors to understand the
19 basis of the proposed vendor payments, population of vendors to receive payments (e.g., basis
20 for Operational Integrity Supplier status), and sizing of the interim and final caps on the payment
21 of pre-petition amounts to such vendors. FTI worked with Counsel to develop recommendations
22 for the Committee on modifications to the orders with respect to these motions, including e.g.,
23 the implementation of regular reporting by the Debtors regarding payments made pursuant to the
24 motions and advance notice of large payments. FTI reviewed reports from the Debtors
25 summarizing payments made pursuant to the motions relative to the corresponding payment caps
26 to monitor compliance with the relevant Court orders.
27
28

23. During the Application Period, FTI also analyzed information from the Debtors to evaluate two significant contracts with Quanta Energy Services (“QES”) that the Debtors sought to have assumed: the Transmission Inspection Agreement (“TIA”) and the Cross-Cut Agreement (“CCA”). FTI analyzed the scope of the two contracts, particularly the nature of the work as it related to the Debtors’ 2019 Wildfire Safety Plan (“WSP”). FTI also analyzed the amounts to be assumed under the contracts, specifically the breakdown of pre-petition and post-petition QES claims. FTI evaluated contract value, tenor, and key terms of both contracts. FTI also evaluated the nature of work as it related to specific operational approaches included in the WSP, e.g., inspection programs, vegetation management, and system hardening. FTI evaluated the importance of each contract to the timely execution of the WSP. FTI also evaluated the procurement process used by the Debtors and how it affected the terms of each of the contracts. FTI prepared a report to the Committee analyzing the economics and operational impact of the motion to assume the QES contracts.

Task Code 7: Analysis of Business Plan

Fees: \$202,198.00

Total Hours: 262.0

24. During the Application Period, FTI analyzed various motions and filings impacting the Debtors’ operations and business outlook. Time in this task code includes review of proposed motions to continue customer programs and hedging activities, analysis of certain rate case filings, and evaluation of potential operating structure alternatives. With respect to the customer programs motion, FTI reviewed the nature of the Debtors’ various customer programs, assessed the anticipated level of collections and obligations with respect to the programs, and analyzed the necessity of continuing to perform under these programs. FTI’s work with respect to the hedging motion involved analyzing the nature of financial hedges to be entered into by the

1 Debtors, the Debtors' risk management processes, and magnitude of the hedge portfolio. FTI
2 prepared reports for the Committee summarizing the relief requested by the Debtors with respect
3 to these motions, as well as recommendations with respect to potential modifications to the
4 corresponding orders (e.g., reporting on collateral postings).

5 25. FTI also reviewed rate cases filed by the Debtors to evaluate the impact on the
6 Debtors' business plan. For example, FTI reviewed the 2020 Cost of Capital filing to assess the
7 increased return on equity and wildfire risk premium, and corresponding increase to revenue
8 requirements. FTI also compared this to the Cost of Capital filings submitted by the other
9 California investor-owned utilities.

11 26. FTI analyzed potential alternate operating structures and resulting impact to the
12 Debtors and unsecured creditors, including e.g., a separation of the Debtors' business by segment
13 or geography, municipalization of certain assets, or conversion into a publicly-owned utility.
14

15
16 **Task Code 9: Analysis of Employee Comp Programs**

17 **Fees: \$450,541.00**

18 **Total Hours: 587.6**

19 27. During the Application Period, FTI's scope of work with respect to employee
20 compensation programs focused on two main areas: the review and diligence of the employee
21 wages motion, and the review and analysis of the proposed 2019 Short-Term Incentive Plan
22 ("STIP").
23

24 28. FTI reviewed the relief requested in the Debtors' motion seeking authority to pay
25 prepetition employee compensation-related amounts, pay and honor employee and retiree
26 medical and other benefits, and continue to participate in employee compensation, welfare,
27 retiree benefit and pension plans in the ordinary course on a postpetition basis. FTI had
28 discussions with the Debtors and their advisors to understand the nature of various employee

1 compensation-related programs it sought to continue, as well as the outstanding prepetition
2 amounts owed to employees. FTI prepared a summary of the motion and recommendation for
3 the Committee.

4 29. The analysis of the STIP included a detailed review and assessment of plan terms,
5 participants, cost, performance metrics at the threshold, target, and maximum levels, payment
6 timing, and other supporting materials provided by the Debtors, such as the market study
7 prepared by their compensation advisor. FTI performed various analyses to evaluate the
8 reasonableness of the proposed plan, including comparisons to historical STIPs, and to similar
9 plans offered by the Debtors' peers. FTI's analyses and recommendations were summarized in
10 reports for the Committee to help it develop a position on the proposed STIP. FTI led
11 negotiations with the Debtors to obtain improvements to the STIP, including but not limited to
12 greater weighting of performance metrics on safety and requiring modifications consistent with
13 any CPUC adjustments to relevant metrics in their WSP.
14
15

16
17 **Task Code 13: Analysis of Other Miscellaneous Motions**

18 **Fees: \$339,645.50**

19 **Total Hours: 391.6**

20 30. During the Application Period, time in this task code relates to FTI's work on
21 reviewing, analyzing, and preparing materials for the Committee with regard to the various other
22 first and second day motions filed by the Debtors (e.g., cash management motion, insurance
23 motion, utilities motion, reclamation and 503(b)(9) claims procedures motions). FTI performed
24 diligence with the Debtors on the various motions and assessed the reasonableness of the
25 requested relief. FTI prepared recommendations for the Committee with respect to these
26 motions (e.g., reporting on activities and approval protocols).
27
28

1 31. FTI also evaluated certain professional retention motions, including the motion to
2 retain the financial advisors for the Debtors and the Official Committee of Tort Claimants (the
3 “**TCC**”). FTI focused on the terms of the professionals’ engagements, including the proposed
4 billing rates and success fee (with respect to the Debtors’ financial advisor), in order to assess
5 whether such terms were market and reasonable.
6

7 32. Also, FTI worked with Counsel to review the Debtors’ motion to establish a
8 wildfire housing assistance fund. FTI conducted diligence with the Debtors to understand
9 various aspects of the proposed fund, including the basis for the fund, sizing, claims to be
10 covered, and any prior precedents.
11

12 **Task Code 20: General Mtgs with Debtor & Debtors’ Prof**

13 **Fees: \$146,291.50**

14 **Total Hours: 149.0**
15

16 33. Time in this task code relates to calls and several in-person meetings with the
17 Debtors and their professionals during the Application Period to discuss case-related issues such
18 as case developments and priorities, first day and second day motions diligence, and information
19 flow. FTI also participated in bi-weekly status calls with the Debtors.
20

21 **Task Code 21: General Mtgs with UCC & UCC Counsel**

22 **Fees: \$317,585.00**

23 **Total Hours: 342.3**
24

25 34. Time in this task code relates to calls and in-person meetings that FTI
26 professionals participated in with the Committee, individual Committee members, and/or with
27 Counsel during the Application Period to discuss case-related issues. FTI participated in a
28

1 weekly call with the Committee and a separate weekly call with Committee advisors to discuss
2 case-related issues, strategy, and the status of work streams and deliverables.

3
4 **Task Code 22: Meetings with Other Parties**

5 **Fees: \$59,282.00**

6 **Total Hours: 64.4**

7
8 35. Time in this task code relates to calls and meetings held with case stakeholders
9 other than the Debtors, the Committee, and their professionals. During the Application Period,
10 FTI professionals participated in calls and meetings with representatives of the TCC, the Ad Hoc
11 Bondholders Group, and the California Governor's office to discuss case related issues.

12
13 **Task Code 26: Prepetition Wildfire Claims**

14 **Fees: \$1,044,680.50**

15 **Total Hours: 1,604.4**

16
17 36. During the Application Period, FTI analyzed information from the Debtors and
18 public information sources in order to assess the nature and quantum of various categories of
19 claims related to the 2018 Camp Fire and 2017 North Bay Fires. FTI evaluated the
20 methodologies utilized by the Debtors to develop estimates for the wildfire liabilities amounts
21 disclosed in their financial statements. FTI also developed independent approaches to assess the
22 ranges of claims exposure by type of claim.

23
24 37. FTI insurance specialists reviewed available information on insured losses with
25 respect to wildfires to identify the types of claims that have been or may be asserted against the
26 Debtors, and prepared models to estimate the potential ranges of property claims. FTI insurance
27 specialists also considered the structure of a potential trust to administer prepetition wildfire
28

1 claims, and the process to assess the validity of claims that are based on insured losses, including
2 the types of information that would be required from claimants.

3 38. FTI damage claims specialists reviewed available information on uninsured
4 claims, including non-property claims, to identify additional categories of claims. FTI damage
5 claims specialists developed methodologies, damage models, and other statistical analyses to
6 estimate the potential exposure with respect to each claims category. FTI damage claims
7 specialists also considered the process to assess the validity of underinsured and uninsured
8 claims, including the types of information that would be required from claimants.
9

10 39. FTI participated in regular calls with the Committee's wildfire claims
11 subcommittee. Preparation in advance of these calls included the creation of presentations on the
12 aforementioned topics. Time in this task code also included calls with the Debtors' advisors to
13 discuss the prepetition wildfire claims. FTI prepared reports for the Committee analyzing the
14 claims by category and the modeling and other processes to estimate the potential ranges of
15 claims exposure.
16

17
18 **Task Code 27: Regulatory and Legislative Matters**

19 **Fees: \$303,677.00**

20 **Total Hours: 461.0**

21 40. During the Application Period, FTI monitored regulatory and legislative
22 activities to assess the potential impact on the Debtors' reorganization. Such monitoring was
23 also part of a broader effort to understand the public affairs arena and respond on behalf of the
24 Committee to developments that drive media headlines. FTI reviewed and assessed Governor
25 Newsom's Strike Force report and the draft and final recommendations of the California
26 Commission on Catastrophic Wildfire Cost and Recovery.
27
28

1 Analysis of regulatory, political and legislative reports enabled FTI's public affairs experts to
2 prepare communications materials for lawmakers and reporters on the Committee's public stance
3 on various case issues and developments. FTI also attended public forums hosted by the CPUC
4 and the California Commission on Catastrophic Wildfire Cost and Recovery.

5
6 **Task Code 28: Insurance Subrogation Claims**

7
8 **Fees: \$243,543.50**

9 **Total Hours: 359.4**

10 41. During the Application Period, FTI analyzed data from available information
11 sources with respect to insured losses to estimate the potential ranges of insurance subrogation
12 claims, as well as evaluate the impact of the subrogation process on potential claims that may be
13 asserted against the Debtors. FTI insurance specialists also considered the processes conducted
14 by insurers with respect to paying out wildfire claims and developed a methodology to assess the
15 validity of insurance subrogation claims. FTI insurance specialists reviewed insurance company
16 filings and research reports to assess exposure to the Debtors' wildfire claims by insurer, and
17 also analyzed filings from the Ad Hoc Group of Subrogation Claimholders related to insurance
18 claims.
19

20
21 **Task Code 29: Future Claims Risk Modeling**

22 **Fees: \$304,138.00**

23 **Total Hours: 470.2**

24
25 42. During the Application Period, FTI developed approaches to estimate and
26 quantify future wildfire risk levels and potential future claims. FTI damage claims specialists
27 reviewed information including but not limited to historical wildfire data, the Debtors' filings
28 with the CPUC, the location and magnitude of high fire threat districts, the transmission and

1 distribution mileage and asset exposure of the Debtors' service territory, and utility ignition rates
2 in order to develop models of risk and damages estimates. FTI insurance specialists evaluated
3 possible structures of a fund to address future wildfire liabilities, including conducting research
4 into comparable insurance-based catastrophe funds, and assessing potential levels of funding,
5 utility insurance retention, and potential mechanisms for reinsurance. FTI also assessed the
6 implications of inverse condemnation and any potential modifications on fund structure and
7 funding. Time in this task code also included meetings with Counsel to discuss approaches to
8 estimating future wildfires risk and damages, as well as potential fund structures and funding.
9
10

11 **Task Code 30: Wildfire Mitigation Plan**

12 **Fees: \$530,967.50**

13 **Total Hours: 638.8**

14 43. During the Application Period, FTI analyzed information from the Debtors and
15 participated in meetings with members of management to discuss the Debtors' wildfire
16 mitigation efforts, and in particular, the development, implementation, and status of the Debtors'
17 WSP. FTI analyzed the WSP filed with the CPUC, as well as the impact of subsequent
18 amendments and the CPUC's proposed and final decisions. FTI evaluated the operational
19 approaches included in the WSP with respect to inspection programs, vegetation management,
20 system hardening, public safety power shutoffs, situational awareness, and alternative
21 technologies, among others. FTI also evaluated the metrics and targets employed by the Debtors
22 with respect to the various WSP programs, and the Debtors' status to date relative to targets. FTI
23 damage claims specialists analyzed approaches to the modeling of wildfire risk by area. FTI
24 damage claims specialists also conducted diligence to assess the modeling approaches utilized by
25 the Debtors to identify and quantify wildfires risk in the development of the WSP. FTI also
26
27
28

1 participated in regular calls with the Committee's wildfire mitigation subcommittee. Preparation
2 in advance of these calls included the creation of presentations on the aforementioned topics.

3
4 **Task Code 31: Public Affairs**

5 **Fees: \$417,104.00**

6 **Total Hours: 679.9**

7
8 44. During the Application Period, FTI's public affairs specialists developed a series
9 of messaging and communications materials to help the Committee communicate its positions on
10 various developments related to PG&E's bankruptcy and wildfire liability reform efforts in the
11 state. FTI developed messaging to articulate to key media and legislative audiences who the
12 Committee is, their positions, and what's at stake in the restructuring of PG&E. FTI also
13 developed messaging on the wildfire fund, inverse condemnation, Governor Newsom's Strike
14 Force report, and the CA Wildfire Commission's recommendations on wildfire liability, among
15 other topics and developments.
16

17 45. FTI used key messages to advance media and government outreach efforts on
18 behalf of the Committee. FTI developed media statements and a press release, reporter and
19 lawmaker briefs, a fact sheet about the Committee and its positions, and other key talking points.
20 FTI also shared statements with local/regional and national reporters and educated reporters on
21 the Committee's positions. FTI worked with Axiom Advisors to coordinate and assist Committee
22 public affairs subcommittee members in developing statements for external parties to advocate
23 for the Committee's positions and to understand political developments. FTI also participated in
24 regular calls with the Committee's public affairs subcommittee. Preparation in advance of these
25 calls included the creation of presentations on the aforementioned topics and coordination with
26 Axiom Advisors.
27
28

Task Code 32: Customer Affordability & Benchmarking

Fees: \$268,255.00

Total Hours: 401.6

46. During the Application Period, FTI analyzed the Debtors' business in terms of customer affordability and operating performance relative to similar companies around the country. To conduct the customer affordability analysis, FTI performed extensive research to identify and analyze economic, demographic, and energy usage data from sources ranging from government and quasi-government entities, public filings, and industry analysts. To assess customer affordability, FTI analyzed data for the Debtors' business as well as 21 other comparable utilities in nearly every region of the country. FTI analyzed the relative affordability of the Debtors' rates for their customers, based on any number of factors including, but not limited to, income levels. FTI researched numerous aspects of the Debtors' business, including financial and operational metrics, and compared such metrics against those of comparable utilities. This analysis also included relative measurements against the 21 other comparable utilities' health and safety, reliability, and customer satisfaction metrics. These analyses helped the Committee understand the performance of the Debtors relative to their peers, as well as the potential feasibility of rate increases for customers serviced by the Debtors.

Task Code 35: Current Events

Fees: \$71,526.00

Total Hours: 189.2

47. During the Application Period, FTI prepared regular and ad hoc media coverage summaries to monitor and assess developments related to PG&E's bankruptcy case, California wildfires, relevant legislation and regulatory issues, and other utilities in the state. FTI produced a daily media clips package by compiling articles from trade, local, regional, and national media

1 outlets to monitor and analyze developments, trends, and stakeholder sentiment on the above
2 topics. FTI leveraged media coverage documents to compile and maintain a list of key
3 stakeholders and third parties who weigh in publicly on the debate around wildfire liabilities,
4 inverse condemnation and other key issues. This information helped keep the Committee and its
5 advisors abreast of the latest developments impacting the Debtors and unsecured creditors.
6

7 8 **REASONABLENESS OF FEES**

9 48. FTI has received no payment and no promises for payment from any source other
10 than the Debtors for services rendered or to be rendered in any capacity whatsoever in
11 connection with the matters covered by this Application. No agreement or understanding exists
12 between FTI and any other entity (other than shareholders or employees of FTI), for the sharing
13 of compensation received or to be received for services rendered in or in connection with these
14 cases.
15

16 49. FTI seeks compensation for actual, necessary professional services rendered and
17 reimbursement of reasonable expenses incurred on behalf of the Committee during the
18 Application Period. During the Application Period, FTI charged \$5,790,628.25 in fees. FTI
19 submits that its fees are reasonable for the work performed in these cases and the results
20 obtained.
21

22 50. All of the services for which interim compensation is sought herein were rendered
23 for and on behalf of the Committee and not on behalf of any other entity. FTI respectfully
24 submits that the professional services rendered were necessary, appropriate and have contributed
25 to the effective administration of the Debtors' chapter 11 cases and maximization of value. It is
26 respectfully submitted that the services rendered to the Committee were performed efficiently,
27 effectively and economically, and the results obtained have benefited the unsecured creditor
28 body as a whole and the Debtors' estates.

1 51. FTI believes that its billing rates in these Chapter 11 cases are reasonable billing
2 rates for purposes of this Court's determination of the "reasonableness" of the fees for services
3 rendered and are in accordance with FTI's Retention Application and retention order approved
4 by this Court.

5
6
7 **REASONABLENESS OF EXPENSES**

8 52. During the Application Period, FTI incurred \$46,501.13 in expenses on behalf of
9 the Committee. Detailed descriptions of FTI's expenses are included in Exhibit E.

10 53. FTI believes that the expenses incurred are reasonable and economical relative to
11 the services required by the Committee and were incurred as a direct result of FTI's
12 representation of the Committee. These expenses are the type customarily charged to non-
13 bankruptcy clients of FTI. None of the expenses relate to non-reimbursable overhead.

14
15
16 **CONCLUSION**

17 54. In accordance with the factors enumerated in section 331 of the Bankruptcy Code,
18 the amounts requested herein are fair and reasonable given (a) the complexity of the cases, (b)
19 the time expended, (c) the nature and extent of the services rendered, (d) the value of such
20 services, and (e) the costs of comparable services other than in a case under the Bankruptcy
21 Code.

22
23 55. FTI submits that pursuant to the criteria normally examined in bankruptcy cases
24 and based upon the factors considered in accordance with sections 330 and 331 of the
25 Bankruptcy Code and Bankruptcy Rule 2016, the results achieved provide more than sufficient
26 justification for approval of the compensation sought by FTI.

27 56. As a result of FTI's efforts herein, it is respectfully submitted that FTI's efforts
28 are resulting in a substantial benefit to the Committee and its constituents.

1 57. Pursuant to the Interim Compensation Order, notice of this Application and a
2 copy of this application have been served upon the Notice Parties (as defined in the Interim
3 Compensation Order). FTI submits that, in light of the relief requested, no other or further notice
4 need be provided.

5 58. WHEREFORE, FTI respectfully requests that a first interim award for fees during
6 the Application Period in the amount of \$5,790,628.25 and reimbursable expenses in the amount
7 of \$46,501.13, totaling \$5,837,129.38 be granted and that this Court grant such other, further
8 relief as it deems just and proper.
